

Warren County Health Department

Built-in Cabinetry

Proposal:

Warren County Health Department director, Andrea Fox, would like to request a bid process for the Warren County Health Department building.

1. Built-in cabinetry and sink along the wall in conference room (see Pat or Andrea for measurements)
2. Built-in cabinetry in Lab (see Pat or Andrea for measurements)
3. Built-in desks and cabinetry in 2 Nurse Practitioner Offices as well as in 2 Nursing offices (see Pat or Andrea for measurements).
4. Built in desks and storage in Clinic 2 and 3. (see Pat or Andrea for measurements)

Support :

This will provide more workable workspace for full time staff and visiting providers. This will also provide much needed storage space and counter space in in conference room and offices.
